Radiation Therapist - Part-time

Ventura County Radiation Oncology Medical Group, Inc. – Ventura County, CA 93030

Radiation Oncology Centers of Ventura County in Coastal Southern California has an immediate opening for a **part-time licensed Radiation Therapist**.

What Makes Us Different?

- **Family Culture** – we treat our patients and team members like family, with compassion, kindness, humor
- **Personalized Care** – we believe in looking at people as individuals and their conditions as unique, not just a standardized approach
- **Careers, Not Jobs, Focused on Learning & Growth** – learn all aspects of therapy care not just one part, work and train alongside award-winning doctors, onsite physics team, variety of conditions and patients
- **New Ideas and Possibilities** – where you can contribute your ideas and make things better as part of a dedicated team
- **Big company technologies, small company culture** – where you can learn advanced treatments and technologies and individually make a difference
- **Coastal Southern California** – great communities, adjacent to the Santa Monica Mountains, 10 minutes to the beach, 30 minutes to Santa Barbara, on the gateway to the L.A. metro area without being in it.

Key Job Responsibilities Include:

- Administer high quality radiation therapy as prescribed by the physician.
- ExacTrac experience is a plus
- Be able to work proficiently utilizing the latest treatment techniques including 3D conformal, IMRT, IGRT and SRS/SBRT
- Verify prescribed treatment dose before each treatment; verify fields to be treated, and angles to be used
- Assure placement of protective devices, to shield otherwise healthy exposed tissue of patients
- Simulates patients using simulator, CT scanner or other devices to accurately localize treatment areas
- Display professional conduct essential to the well-being of the radiation oncology patient
- Maintain accurate and detailed treatment chart documentation
- Observe the clinical progress of the patient, use clinical decision-making skills to recognize and report any signs of complications
- Adhere to radiation safety procedure protocol
- Perform machine safety checks; know safe limits of equipment operations, and report abnormalities or inconsistencies to the Center Leader
- Work closely with the Radiation Oncologist and the therapy team in the preparation of a treatment plan
- Adhere to the Radiation Therapist Code of Ethics
- Regular attendance and punctuality
